Professional experience

Product designer and Design System manager

Stratio BD

2022 – Present

I help to think, develop, design, and test the product, trying to achieve simplicity in a complex AI, ML, and Big Data software. I work closely with clients, product owners, fronts, backs, and QAs. I am specialized in scalable Design Systems, and currently, I am in charge of the design system of the company. Working at Stratio has given me the opportunity to work on other great and challenging products for clients like Banco Santander, El Corte Inglés, Sanitas, Banco Bajío, Planasa...

Product designer and Design System manager

Qualifyze

2022

At Qualifyze, I learned a lot about the pharma industry and the auditing world. I redesigned and created the new design system for the product. Additionally, I had the privilege of creating a new product for them based on all audit gathered data to provide better insights to customers.

Product designer and Design System manager

Stratio BD

2018 – 2022

Product designer & Front End developer

UE Studio

2016 – 2018

In UE Studio, I made a lot of Branded Content sites for many clients like: Correos (Spanish postal service), LG, Banco Santander, Siemens, El Corte Inglés, Telefónica, Michael Kors... It was a pleasure to participate in all the process: briefing clients, making prototypes, and coding (HTML, CSS, and JS). I enjoyed a lot the continuous creativity process and coding again.

Chief of Design

Marca
Marca.com

2005 – 2016

In charge of the design team of the print and online versions of the newspaper. We made two in house redesigns made for both versions (plus tablet and mobile specific apps versions). Lead a team of +30 great people. I helped to start MARCA in Colombia training the team.
